

How to read this chart:

The rows of data shaded blue indicate the funds available through Fidelity Investments Standard Plan Options.

▲ The rows with no shading indicate the benchmark the fund listed above is measured against.

Fee Disclosure for each fund may be found on Page 3. FPPA Assessed Administrative Fees and a Glossary of Terms may be found on Page 4. Data in this handout has been provided by AndCo Consulting, Inc. (formerly Bidart & Ross, Inc.)

The historical performance for certain funds listed, may show longer time periods than what can be found in the Fidelity Investments materials or websites. AndCo Consulting, our investment advisor has extended the historical performance of certain funds by combining the returns for share classes of the same fund that have a longer performance history. As an example, The American Funds New Perspective R6 share class has only been available to investors since May 1, 2009. However, the New Perspective Fund A share was originally opened to investors on March 13, 1973. Both funds are managed in an identical fashion with the only difference being the lower expense ratio for the R6 share class. It is important to remember the past performance does not guarantee future results.

FPPA Fee Disclosure by Fund | 1st Quarter 2022

FPPA understands that the fees and expenses of the investments you select have an impact on the overall returns of your portfolio. Participant accounts are charged the [Net Expense Ratio](#) listed below. The Net Expense Ratio reflects a reduction of the funds gross expense due to the fact that certain fees have been waived by the investment manager. The fund performance returns shown are net of the expense ratio. The administrative fees listed on Page 4 are also deducted from the member's account and will be reflected on the quarterly statement. The revenue sharing amount shown is part of the expense ratio, not an additional fee.

See [Glossary of Terms on Page 4](#) for more information.

Administrative Fee Schedule Chart

The FPPA Self Directed Plans Committee (SDPC) has evaluated all costs associated with providing the self-directed plan offerings for our members for the past year and has set the following fee schedule for 2022. We are pleased to announce that a fee holiday is in place for one of the plans.

2022 Administrative Fees for these Self-Directed Plans	Annual Fee Deduction in January	Quarterly % Deduction in March, June, September and December
FPPA 457 Deferred Compensation Plan	\$10	0.027%
Statewide Hybrid Plan - Money Purchase Component	\$10	0.027%
Separate Retirement Account (SRA) self-directed assets only	\$10	0.017%
Deferred Retirement Option Plan (DROP) self directed assets only	\$10	0.029%
Statewide Money Purchase Plan	\$0*	0.000%*

*A fee holiday is in place for this plan for 2021, therefore no administrative fee will be deducted from your account in 2021. This is due to the plan having sufficient forfeitures to cover the expected annual administrative costs. The administrative cost of each plan is reviewed annually and the administrative fee is adjusted as necessary.

GLOSSARY OF TERMS

Equity Wash Provision

This provision is commonly found in stable value products which stipulates that any transfers made from the stable value fund must be first directed to a “non-competing” fund (typically an equity fund) in the plan for a stated period of time (typically 90 days). After the time period has lapsed, the transferred funds may then be directed to the “competing” fund (such as a money market fund or brokerage window). This provision is intended to reduce interest rate arbitrage by plan participants, thus permitting stable value contract issuers to underwrite the plan without the excessive risk exposure.

Prospectus Gross Expense Ratio – Maximum allowed by the Prospectus

The percentage of fund assets used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's net asset value (NAV). It should be noted that the funds offered within the FPPA Plans do NOT have sales charges and, therefore, are not reflected in the expense ratios.

Prospectus Net Expense Ratio – Actual Amount Investors Pay

The percentage of fund assets, net of reimbursements or waivers, used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's net asset value (NAV). It should be noted that the funds offered within the FPPA Plans do NOT have sales charges and, therefore, are not reflected in the expense ratios.

An example of the Net vs Gross Expense Ratio - XYZ Equity Fund has a stated gross expense ratio in the prospectus of 1.20% but the Fund's management has elected to waive 0.20% of their fees. Therefore, the Fund has a net expense ratio of 1.00%, which is what is deducted from the Fund return or NAV.

Revenue Sharing

An amount of the Net Expense Ratio that is given back to plan service providers. The revenue sharing is credited back to the participants in the funds on a quarterly basis. It is important to note that this is not an additional fee imposed by the fund, but is a component of the Net Expense Ratio.

An example would be the Hood River Small Cap Growth Institutional Fund, which has an annual net expense of 1.08%, if you look at the Fee Disclosure by Fund it shows that the fund offers revenue sharing of 0.10%. This simply means that the fund company is getting 1.08% minus 0.10% or 0.98% and Fidelity receives 0.10%, which will be credited on a quarterly basis to the participants in that fund.
